## SPECIALIST MOBILE UNITS

### STANDARD FEATURES

- 40 l/min flow rate
- Hatz 2G40 motor with Vibroflex coupler fitted
- High pressure Interpump
- Inbuilt diesel tank
- Choice of high pressure hose lengths
- Battery powered with keyed start and alternator

Custom built options available, choose your flow rate, pressure, hose length, cabinet design and more.

Suitable for specialist high pressure washing applications such as heavy use agricultural cleaning, offshore and underwater marine cleaning environments amongst other.
